BBJ Mold and Mildew Remediation Concentrate

Powerful Disinfectant/Cleaner Eliminates Mold and Mildew (EPA Reg. No. 10324-80-67212)

DESCRIPTION **BBJ Mold and Mildew Remediation Concentrate** is a one step disinfectant that is effective against a broad spectrum of bacteria and kills mold and mildew. This is a no rinse disinfectant cleaner that disinfects, cleans and deodorizes in one labor saving step. It's concentrated formula delivers superior performance and a lower end-use cost.

APPLICATION Moisture from floods, broken pipes, or even uncontrolled humidity can result in mold contaminated indoor spaces. BBJ Mold and Mildew Remediation Concentrate is specially formulated to easily remove the mold and mildew on these tough remediation jobs. BBJ Mold and Mildew Remediation Concentrate can be used to disinfect surfaces encountered in every phase of a mold remediation job including:

- Drywall
- Wood frames
- Paneling
- Floors
- Carpeting
- Sub-floors
- Personal protective equipment clean-up

BBJ Mold and Mildew Remediation Concentrate can also be used to sanitize non-food contact surfaces, including:

- Walk in coolers
- Floors
- Counters

Benefits

- Low End-Use Cost – The concentrated formula means you pay only for the powerful cleaning agents, not the water required for the final solution.
- Built In Cost Control – Unique easy flow measuring cup built in to every bottle delivers the exact amount of product needed for the job.
- Labor Savings – One step product does not require rinsing.
- Easy to Transport – Easy to Store – The concentrate needed to make 8 gallons of cleaner-sanitizer weighs only 16 ounces and can be easily carried to the job site.

Product Bulletin and Application Guide

BBJ Mold and Mildew Remediation Concentrate

PROPERTIES

pH:	12 - 13
Specific Gravity:	1.100 +/-0.050
Appearance:	Clear light green liquid
Odor:	Pine
